

BLANKET ISD

**Athletic
Handbook
2022-2023**

Mission Statement and Philosophy of Athletics:

The mission statement of the Blanket ISD Athletics is to provide a dynamic environment which promotes commitment, dedication, hard work, sacrifice, competitiveness, teamwork, self-discipline, and pride.

Our philosophy of athletics is that it enhances a student's academic efforts by providing them with physical activity on a competitive level. At Blanket, we strive to prepare our student/athletes mentally, physically, and emotionally. This philosophy is established for on and off athletic field. If one will live up to the standards set by the athletic department, athletics can and will serve as an outstanding extension of academics. We want our athletes to become strong young men and women, and we encourage this beginning at our strong Jr. High-level program all the way through our high school program.

Athletics is an important part of the educational process. Without athletics, students would not have the real idea of hardships. I believe we have a direct impact on the student/athlete. We are here to help mold and shape them into productive and successful people. We are building our future leaders. The athletic program shapes bodies, hearts, minds, and behavior. Athletics offer opportunities to learn fitness, proficiency, team commitment, respect for others, self-control, and how to deal with both success and failure. I believe that we are here to help train them and to help them build a bright future. We can achieve this through strong discipline, good character, and creating a positive learning environment. We also must be supportive in their failures as well. Life is an ongoing change of wins and losses, up and downs, but we all must stay the course. Athletics will help build a young man or woman and help them prepare themselves for life. Athletics helps build strong unity, trust, and teaches family values as well. It teaches responsibility, commitment, and accountability. It encourages them to be the best they can be, even through the hard times. As educators and coaches, it is our job to push everyone toward becoming their best academically and athletically. A quote from a great book states, "Train up a child in the way he should go: and when he is old, he will not depart from it". Proverbs 22:6 (KJV) I believe with our support we can help train the child in the way they should go. Being positive and supportive through it all is very important to our training. With the help from the school and the parents, I believe each student/athlete will have a positive experience through athletics.

The school district cares about the well-being of student-athletes; however, the school District does not assume liability for injuries incurred in athletics.

General Statement to Athletes and Parents:

According to University Interscholastic League rules, being in athletics is a privilege and not a right. When a young man or young woman signs up for athletics and becomes a member of the team, he or she is making a commitment. The students and their parents should know they are obligated to follow the rules and regulations of the program. The students should realize that they are not forced to participate. It is voluntary; therefore, they are expected to follow rules in order to remain a member of the team.

Parents should encourage their son or daughter to achieve success in athletics. Success is defined as participating at 100% of the individual ability. We can never expect athletes to do more than they are capable; however, we do want them to obtain their full potential. Supportive parents can instill this desire in student athletes and it will remain with them long after their playing days are over.

Coaching Expectations:

Coaches care about all student athletes and fellow coaches. Coaches will treat all players equally. Coaches will work hard and follow the direction of the head coach of the sport in season. Coaches will become students of each sport, and will stay within the guidelines of both the UIL rules and regulations. It is the Coaches' responsibility to work with the Parents, Administration, School Board and Faculty to assure student success. Coaches will be as successful as classroom teachers as they are coaches.

- Be a great role model, and develop character in student athletes.
- Promote school spirit and community involvement.
- Coach in a positive manner.
- Discipline athletes who display unacceptable behavior.
- Abide by all rules and regulations set forth by Blanket I.S.D. and the U.I.L.

- Coaches will defend our student athletes while remembering to respect the judgment of the officials and their interpretation of the rules.
- Make athletics at Blanket High School a fun and positive experience for all student athletes.
- Loyalty, Character, Technical Knowledge, Organization, & Classroom Performance

Academics:

The character and hard work of an athlete should carry over into the classroom. As an Athlete, you must have the discipline to plan your weekly schedule so that you ensure sufficient time to study and maintain acceptable grades. In addition, an athlete should give respectful attention to classroom activities, and show respect to the faculty and to other athletes at all times. We will have weekly grade checks throughout the school year. This allows the coaching staff to be aware of any and all student grade situations. The coaching staff will do whatever it takes to motivate the athlete in the classroom. Coaches will also be responsible for mentoring an athlete in jeopardy of failing academically.

Quitting Policy

Anyone quitting a sport will be allowed to participate in another sport only when following these conditions:

1. The athlete must be approved for re-admittance by the Athletic Director and the Head Coach of that sport>
2. The athlete must complete 10 miles within a 10 school days period.
3. The extra conditioning will not begin until the next sport's season starts.
4. These must be completed before the athlete is allowed to participate in competition.

The Athletic Director may, at his discretion, make an exception to this rule when an event outside the control of the athlete or his/her family causes the athlete to drop a sport. A clear understanding is to be reached by the time the sport is dropped.

A onetime 24-hour grace period will be allowed. This mean that if an athlete quit a sport and decides to come back to that sport WITHIN 24 hours, he/she will be allowed to do so under the following guidelines:

1. Come to the coach by athletic class the following day and express his/her intentions of rejoining the sport and the reasons why.
2. Apologize to the coaching staff and team.
3. Make up any practice that he/she missed. All make-up must be completed before participating in an athletic contest.
4. A second offense will be removal of the athlete for that sport.

(Being removed from a team is the equivalent to quitting a sport).

Missing Practice/Games & Showing up for Practice Late:

You will be required to be at every practice or game of the sport that you choose to compete in. Unless there is a family emergency, death, and or illness (Doctor's note), missing for another school activity will be excused. You will be expected to be at practice and at all games. It will be your responsibility to contact the Head Coach and notify them of any and all absences, failure to do so will result in a strike and/or discipline at the discretion of each head coach. Players are expected to make up any missed practices/games. Make up

work/punishment will be administered at the discretion of the Head Coach. Any Player who misses a practice, shows up late, or leaves early must remember that missing practice time is disruptive to the entire team. Repeated violations could result in loss of playing time, and/or removal from team. A student will not sit out of practice unless a student has a note from a doctor.

Athletic Period:

Dressing out every day in school issued clothing and or equipment will be required. Some injuries may not allow dressing out, if this is in question please see the Head Coach. Athletes in season will follow the workout determined by the Head Coach of that sport and the Athletic Director. All athletes not in season will follow an off season workout determined by the Athletic Director. All athletes are required to go through off-season in the fall and the spring in order to participate in athletics. This means that you must go through off-season the semester preceding the sport in which you will participate; you also are required to be in off-season while your sport is in season.

Attendance for Athletic Period:

Do not skip class. Do not be tardy. If you must miss the athletic period and/or practice, be sure that it cannot be helped. Do not make appointments during the time to be devoted to athletics unless another time is not available. If you must be absent, call and talk to one of the coaches before the athletic period. If you are absent for any reason, you must bring a note from a doctor, parent, or guardian.

Injury or Illness:

Any student-athlete that is injured during the course of the season or has an illness of a minor nature and is unable to participate due to this injury or illness must continue to follow all expectations, rules, and regulations, if the student-athlete wishes to remain a part of the team. The student-athlete will not participate but will be required to attend all practice sessions and sit with the team during competitions. Failure to attend practices and competitions can result in dismissal from the team. Athletes learn from each practice session, whether they are actually working out or simply observing. If an athlete misses workout due to an injury or illness, a note from a parent or doctor is required. Missing practice for any reason could result in missing competition. Missing more than three practices for medical reasons will require an official doctor's note. If a student has restrictions for one sport due to an injury, they may not compete in another sport until cleared by physician. All student/athletes that have experienced an injury may not return until written documentation from the physician has been given to the coach.

Personal Belongings:

Student-athletes should not leave personal items, especially jewelry or money, cell phones in areas unsupervised. The Athletic department does have locks available upon request. Blanket ISD and the Athletic Department are not responsible for lost or stolen items.

TEAM TRAVEL:

All regular school transportation rules and regulations apply when on an athletic trip. All student-athletes are expected to ride the transportation provided by Blanket ISD, to all competitions. The approval of the head coach must be obtained for a student-athlete to return home with his/her parent/guardian. Parents/guardians must sign the student-athlete out if they are not returning home with the team. If the

student-athlete is to return home with someone other than a parent/guardian, a note from the parent is required the day before the competition.

Drug/ Alcohol/ Tobacco Policies:

If you are in the possession of the any of these substances and/or arrested or receive a citation for these substances the following actions will result:

- Tobacco: Discipline at Coaches' discretion (1st Offense), 2nd offense strike/discipline
- Alcohol: Strike, discipline at Coaches' discretion
- Drugs/ Steroids: Strike, discipline at Coaches' discretion

Felony Law Violations:

Any athlete charged and convicted of a felony offense must meet with a campus review committee before being allowed to represent BISD in any athletic contest.

ATHLETIC CODE

PREAMBLE:

Participation in athletics not only requires certain skills, but also involves carrying out the goals and objectives of learning fair play, sportsmanship, and an understanding and deep appreciation for teamwork. Participation in athletics means assuming responsibilities unique to the participant. Because the participant is closely observed by the public, his behavior must be above reproach on the field, in the classroom, on the campus, on trips, in keeping training rules and in other areas relating to the participant. The participant must keep in mind that their action in everyday life, both public and private, is a direct reflection upon their team and school. Certain guidelines are important to the total success of a good

program. The participant must know these guidelines and understand their relationship to them. They must feel a desire to assume responsibility for their actions, on or off the field. Knowing what is expected of them and knowing that the code will be enforced fairly to all concerned will aid them in their endeavor to assume the role of a “special” student and representative of their school and community.

12. No athlete will be allowed to check out equipment in another sport until payment for missing or destroyed equipment is made.

Parent / Coach Conferences:

Coaches would like to have an open line of communication with parents and encourage them to utilize our open door policy to discuss any situations about which we may be unaware. We would however ask that you do so in a professional manner. As parents of students involved in the BISD athletic program you have every right to understand what expectations are in place for your children. This begins with a clear line of communication from each coach and every parent in the BISD athletic program.

Communication from Coaching Staff to Parents:

The coaches ask that you understand and respect the coaching staff and not address any issues with any coach before, during, or after any practice or game. We would like to resolve any concerns you have in a quick and timely manner. Nothing productive can occur before or after a game, while both the parent and coach could be in a very emotional state of mind. Setting up an appointment at a later date can be productive for two reasons:

1. Both the coach and parent have had time to collect their thoughts.
2. It can be dealt with in a professional, private, and ethical manner.

Items appropriate for discussion:

- Concerns about your child's behavior or well being.
- Understanding why your child has been disciplined and/or treated in a fair manner.
- Expectations the coaching staff of each sport has for your child.

Items that will not be discussed with the coaching staff:

- Playing Time.
- Team Strategy.
- Play Calling.
- Student athletes that are not your children.
- Negativity toward coaches

There are many situations that can be cleared up with an open line of communication. Often we are all on the same page, but somewhere along the line there was simply a miscommunication. We feel this could be cleared rather quickly if we follow a chain of command. If there is a situation that arises we ask that parents follow the chain of command to resolve any problems that may arise.

The Chain of Command:

- Assistant (Position) Coach, if this is where the problem lies
- Head Coach of the Sport
- Athletic Coordinator (Boys/ Girls)
- Athletic Director
- Principal
- Superintendent

Expectations of Parents/ Fans at all Athletic Events:

We have adhered to the TASA guidelines set forth by the official's chapters. If a fan causes a stoppage of play, and the officials asks an administrator to remove a fan from the competition, or a parent addresses a coach in an unprofessional manner; the following consequences are in place:

- 1st Offense: The fan will meet with the Principal, will be suspended for the next game and issued a trespass warning.
- 2nd Offense: The fan will meet with the Principal/Superintendent, will receive a trespass citation and not be allowed to attend any BISSD function for the remainder of the current school year.

Booster Club Guidelines:

(From Texas UIL Parent Manual)

Role of Booster Clubs

Booster clubs are formed by school patrons to help enrich the school's participation in extracurricular activities. It is a violation of the UIL athletic amateur rule for booster club funds to be used for non-school purposes.

The majority of activities supported by booster clubs are related to UIL activities. Since UIL rules regulate what UIL participants, sponsors, and coaches may or may not accept, it is important that booster clubs are aware of these rules.

Superintendent Responsible for UIL Activities

UIL rules are made by the member schools and include penalties to schools, school district personnel, and student participants. The superintendent is solely responsible for the entire UIL program. All activities, events, and personnel are under the jurisdiction of the superintendent. It is imperative that booster clubs recognize this authority and work within a framework prescribed by the school administration.

Relationship with the School

- The superintendent or a designee has approval authority over booster clubs and should be invited to all meetings.
- Booster clubs do not have authority to direct the duties of a school district employee. The schedule of contests, rules for participation of local school administration.
- All meetings should be open to the public.
- Minutes should be taken at each meeting and kept on a file at the school.
- School administration should keep booster clubs informed concerning all school activities.

Expenditure of Funds

- Booster club funds shall not be used to support athletic camps, clinics, private instruction, or any activity outside of the school.
- Booster groups or individuals may donate money or merchandise to the school with prior approval of the administration. These kinds of donations are often made to cover the cost of commercial transportation and to cover costs for out of town meals. It would be a violation for booster groups or individuals to pay for such costs directly.
- To avoid violation of the UIL athletic amateur rule, money given to a school cannot be earmarked for any particular expense. Booster clubs may make recommendations, but cash or other valuable considerations must be given to the school to use at its discretion.
- Coaches and directors of UIL academics, athletics and fine arts may not accept a petty cash fund or miscellaneous discretionary fund. All funds must be given to the school administrator and spent at the discretion of the school, with the approval of the school board.
- Coaches and directors of UIL academics, athletics and fine arts may not accept more than \$500 in money, product, or service from an source in recognition of or appreciation for coaching, directing or sponsoring UIL activities.
- Booster clubs cannot give anything to students, including awards. Check with school administrators before giving anything to a student, school sponsor or coach. Schools must give prior approval for any banquet or get-together given for students.
- Individuals should be informed of the seriousness of violating the athletic amateur rule. The penalty to a student athlete is forfeiture of varsity athletic eligibility in the sport in which the violation occurred for one calendar year from the date of the violation. Student athletes are prohibited from accepting valuable consideration for participation in school athletics (anything that is not given or offered to the entire student body on the same basis that is given or offered to an athlete). Valuable consideration is defined as tangible or intangible property or service, including anything that is wearable, useable or saleable. Saleable food items or trinkets given to athletes by students, cheerleaders, drill team members, little/big sisters, school boosters, parents of other students, teachers, or others violate this rule.

- Homemade “spirit signs” made from paper and normal supplies a student purchases for school use may be placed on students’ lockers or in their yards. Trinkets and food items cannot be attached. Yard signs made of commercial quality wood, plastic, etc., must be purchased or made by the individual player’s parents or returned after the season.
- For purposes of competing in an athletic contest the school may continue to provide meals in association with the contests held away from the home school. If the school does not pay for meals, then individual parents need to purchase their own child’s food. Parents may purchase anything they wish for their own child, but may not provide food and other items of valuable consideration for their child’s teammates without school approval.
- Parties for athletes are governed by the following State Executive Committee interpretation of Section 441.

Lettering Per Sport:

The Athlete must complete the season of the sport he/she are lettering in.

- Football: Play in 30% of the season’s games played.
- Volleyball: Play in 30% of the season’s games played.
- Basketball Boys/ Girls: Play in 30% of the season’s games played.
- Baseball/ Softball: Play in 30% of the season’s games played.
